Dear Valued Customer:

For our customers' convenience in an increasingly complex regulatory world, Caplugs has put together the following regulatory list for our catalogue standard parts. We understand that our customers often have several regulations to meet at one time, so we have gathered as much information as we can. The data below is based on the information provided by our suppliers and other readily available information. This information is not intended to substitute for any testing you may need to conduct to determine for yourself the suitability of these parts for a particular purpose, application, or destination. Caplugs makes no guarantee of results and assumes no obligation or liability whatsoever in connection with this information. A list of our "standard option materials and colors" is provided at the end of this letter.

EC Directive on Waste Electrical and Electronic Equipment (WEEE) and EC Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment, RECAST 2011/65/EU (RoHS2) & Directive (EU) 2015/863 (RoHS3)

Caplugs standard option materials and colors meet the EC directives, and do not contain any substances above reportable thresholds.

China RoHS 2 (effective 1 July 2016) - China's Ministry of Industry and Information Technology (MITT)

Caplugs standard option materials and colors do not contain any substances greater than those allowed per GB/T 26572-2011.

REAcH (Restriction, Evaluation, and Authorization of Chemicals / Substances of Very High Concern / Restrictions):

Caplugs standard option materials and colors do not contain any of the 253 substances of very high concern (SVHC) February 2026 or substances in Annex XIV above reportable permitted thresholds.

IMDS/GADSL (International Material Data System concerning the Global Automotive Declarable Substance List):

IMDS submissions are available upon request. Please provide your IMDS ID number. Please refer to individual MDS for declarable substances according to the GADSL. There are no prohibited substances according to the GADSL present in our standard option materials and colors above the applicable thresholds.

California Proposition 65

Some of our standard option parts contain substances known to the State of California to cause cancer or reproductive harm. Disclosures for particular parts are made as applicable. We are not aware of consumer product exposure scenarios where the warning thresholds would be exceeded, but the responsibility for warning determinations rests with our customers.

Conflict Minerals (i.e., tantalite, tin, tungsten, and gold)

Caplugs has been assured by our suppliers that metals derived from minerals defined as "Conflict Minerals" per Section 1502 of the Security & Exchange Commission *Dodd-Frank Wall Street Reform and Consumer Protection Act* are not present in our standard option materials and colors.

BPA, DEHP, Lead, Mercury and Sulfur

These ingredients are not intentionally utilized in Caplugs standard option materials and colors: BPA, DEHP, Lead, Mercury and Sulfur.

Montreal Protocol (CFC's and HCFC's)

Caplugs products are not manufactured with CFC's or HCFC's.

Revision - 4	Effective Date - Tuesday, March 10, 2026

JIG (Joint Industry Guide) Level A and Level B substances

Caplugs products made from standard option materials and colors do not contain JIG Level A substances. Non-PVC standard option products do not contain Level B substances. Standard option PVC products contain PVC and certain phthalates over 1000ppm.

Latex

Caplugs standard option materials and colors do not contain natural rubber latex and are not manufactured with natural rubber latex.

TSE/BSE and Animal Origin

Caplugs maintains certifications that any ingredient of animal origin is processed beyond the requirements listed by the US and the European Union to prevent TSE/BSE transmission.

CONEG and Packaging Directive 94/62/EC

Our products (as packaging) contain less than 75 ppm of (combined) Lead (Pb), Mercury (Hg), Cadmium (Cd), and Chromium VI (CrVI+).

SDS (Safety Data Sheets).

According to 29 CFR 1910.1200 (b) Caplugs products are considered articles and are exempt from the requirements of SDS.

EPA TSCA Section 6(h)

Caplugs standard option materials and colors do not contain the following chemicals:

- PIP(3:1), phenol, isopropylated phosphate (3:1), CAS 68937-41-7 (restriction date per originally published final rule: March 8, 2021).
- DecaBDE, decabromodiphenyl ether, CAS 1163-19-5 (restriction date per originally published final rule: January 6, 2021).
- 2,4,6 TTBP, 2,4,6-tris(tert-butyl)phenol, CAS 732-26-3 (restriction date per originally published final rule: March 8, 2026).
- HCBd, hexachlorobutadiene, CAS 87-68-3, (restriction date per originally published final rule: March 8, 2021).
- PCTP, pentachlorothiophenol, CAS 133-49-3 (restriction date per originally published final rule: March 8, 2021).

PFAS

Caplugs products manufactured from standard option materials and colors (listed below) do not contain PFAS

UV-328

Caplugs products manufactured from standard option materials and colors (listed below) do not contain UV-328

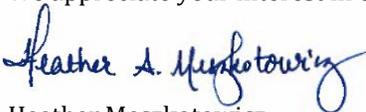

Rare Earth Elements

Caplugs products manufactured from standard option materials and colors (listed below) do not contain rare earth elements

Below is a list of Caplugs Standard option materials and colorants:

List of standard option materials:	List of standard option colors:	List of standard option PVC:
PE-LD01	BLK002	PVCBLK100
PE-HD06	BLU003	PVCORG400
PE-MD05	BRN547	PVCRED312
E/VAC04	GRN002	PVCYEL501
E/VAC75	GRY009	PVCGRN601
TEO70	NAT001	PVCBLU707
PP08	ORG002	PVCGRY801
PP701	RED002	PVCWHT902
PP702	WHT002	
	YEL002	

We appreciate your interest in our products. If you have any other regulatory/SOC questions, please contact us.
